@3ktoslo

Well hello there!

It might be July, aka vacation time, here in Oslo but despite the grand exodus to foreign beaches and bars there is still plenty of fun to be had.

All you need is some kind of handy guide to help you find the good stuff...

SCAN ME -->

We can only fit in a small amount of what Oslo has to offer in these pages, so if this little taster has you craving for more then scan the QR code above to take you right to your app store of choice and install the broadcast app so that missing out on concerts and clubs in Oslo becomes a thing of the past.

Have fun, be safe and enjoy the music.
