MUSIKKFEST EDITION

Yay!

Finally its June and at last we have the chance to freely explore the streets of Oslo in search of the largest selection of musical genres you will find on any one single day!

This year we have partnered up with the Musikkfest team to help you discover new local musical talent, and explore the city to your hearts content. In our center pages you will find a pull out map of all the stages, and in our app a dedicated schedule for the entire days activities.

June also means that festival season is now well and truly underway. With the likes of PiPFest, Loaded, Tons of Rock and OverOslo pulling together some quite stellar line ups, this month is packed full of musical treats.

Wow, if only there was some handy guide to help you keep track of all these fun events?

Finally, thanks to all our partners & advertisers that have made this edition possible, all the crew at Musikkfest for giving us the chance to help out, and of course all the artists & venues who provide so much music.

Have fun out there!
